

**EMA Chicago, Inc.**

## **VEEBox™ Ventilator Exhaust Economizer installed in Farragut Elementary School – Joliet ESD 86**

### **The Situation**

To improve air flow through classrooms, the univent shown below has been retrofitted with a VEEBoX™ Ventilator Exhaust Economizer. The VEEBoX™ directs air across the classroom. Air distribution and temperatures are more evenly distributed. Univents respond more quickly to changing numbers of people in the room.

### **VEEBoX™ shown mounted on top of Unit Ventilator**

- *No more stacking on top of grilles.*
- *No more hot spots nor cold spots in room.*
- *Improved comfort equals improved student performance.*
- *Meets ASHRAE Standards for energy efficiency and comfort control.*
- *A simple solution.*
